

JULIEN GRAND-CHAVIN

Senior Mobile Engineer — Stockholm, Sweden · EU citizen

hello@juliengrandchavin.dev juliengrandchavin.dev in/juliengrandchavin gh/jgrandchavin

// about

9 years shipping consumer mobile apps end-to-end, from architecture to App Store review. Co-founder at Revolt Games (5M players, $3M+ raised). Now building AI-first with Claude Code as lead reviewer at Betclic.

// experience

Betclic — Senior Mobile Engineer (Jan 2026 → Present)

Remote

Part of the team that rebuilt Betclic's native apps in Flutter in ~8 months, launching to millions of players in 2027 (€1.5bn+ revenue in 2025).

- Teams: Player Onboarding (login, registration, compliance), Sports Betting (animations, Rive) and Core Architecture (architecture maintenance, performance, design system, cross-cutting features).
- AI-first with Claude Code: guide the agents, review the code, test every change.
- Lead code reviewer across a 945-module codebase with 85 contributors.

`Flutter` `Claude Code` `Code review`

Freelance — Mobile Engineer (2025)

Remote

- Built Flutter apps for clients: architecture, state management and features.
- Set up CI/CD (Fastlane, GitHub Actions) and App Store / Google Play releases.

`Flutter` `Fastlane` `CI/CD`

Revolt Games — Co-Founder (2020 → 2025)

Lyon, France · Mobile Developer → Lead → Co-Founder

Studio behind Neopolis and Neoland, social games played on top of real-world geography. Led mobile development, product strategy and technical architecture.

- Scaled Neopolis to 5M players, 300K MAU and $1.5M ARR.
- Raised $3M+. Best Social Game, Games Connection SF 2021.
- Featured in Apple's Best Mobile Games (2022 & 2023); 100M+ TikTok views; press in 25+ outlets across 5 countries.
